

CORONAVIRUS COVID-19

UPDATE FROM 24th FEBRUARY 2022

If you are attending an appointment at 88 Rodney Street, you will notice we have maintained some of the precautions we put in place during the pandemic.

The safety and wellbeing of our staff, practitioners and all those using our facilities has always been our highest priority and we have been working hard to protect those who use our medical consulting rooms. We have amended our protocols as the advice from the Government has changed but being a medical establishment, we continue to encourage everyone to follow our safety measures as shown below.

OUR SAFETY MEASURES

Do not attend if you have tested positive or display symptoms of Coronavirus

Wear a face covering if you can, in the waiting room and common areas.

The Government suggests you continue to wear a face covering in crowded and indoor spaces where you may come into contact with people you do not normally meet.

Allow adequate physical distancing where you can

Use anti-viral hand gel/sanitiser on arrival, in our waiting rooms and in the consulting room.

Observe good hand hygiene.

Maintain air flow and ventilation through the building, we open windows even in the cold.

Thank you for your cooperation and helping us keep COVID-19 out of our facility.
